

ACADEMIC MEMBERSHIP: SUPPORTING THE DEVELOPMENT OF FUTURE HEALTHCARE LEADERS

Supporting our commitment to expand interdisciplinary education, knowledge and connection to prepare future leaders in healthcare, academic membership provides students and faculty with access to a community of patient experience professionals and resources to support careers across the continuum of care.

Academic membership is available to individual colleges or schools (School of Health Administration, School of Medicine, School of Nursing, School of Pharmacy, School of Public Health, etc.) within an academic university or institution. **For a subsidized annual membership fee of \$1,000, each college or school can offer unlimited membership access to current faculty and enrolled students within the specific school.** Once an Academic Membership is established by the college or school, individuals will be invited to register under that membership using their school email address. Periodic verification of active faculty or student status will be required to maintain membership access.

MEMBERSHIP PROVIDES ACCESS TO:

PUBLICATIONS

Patient experience publications, such as reports and research papers, support individuals in all stages of the patient experience journey.

CONNECTIONS

A dynamic space for members to convene, engage and contribute to elevating, expanding and enriching the global dialogue on improving the patient experience.

LEARNING

Members receive discounts on learning programs that can provide students with an understanding of the industry to broaden their education and future career development.

EVENTS

In-person and virtual events that bring together healthcare leaders, staff, physicians, students, patients and families, allowing students to learn and network with future colleagues.
