

SPECIAL INTEREST COMMUNITIES

Special Interest Communities serve as a connection among healthcare leaders committed to improving the patient experience in an identified role or area of interest. They foster collaboration and offer a venue for sharing ideas, practices, challenges and opportunities.

Participation is open to members of The Beryl Institute working within the special interest. Each community is guided by volunteer leadership from a corresponding board or council of appointed members of the Institute.

ABOUT THE BERYL INSTITUTE:

The Beryl Institute is the global community of healthcare professionals and experience champions committed to transforming the human experience in healthcare. We define the patient experience as the sum of all interactions, shaped by an organization's culture, that influence patient perceptions across the continuum of care. We believe human experience is grounded in the experiences of patients & families, members of the healthcare workforce and the communities they serve.
